## Benchtops range

**polytec**'s Benchtops range brings together more than 150 realistic stone structures, woodgrains and solid colours, designed to suit both contemporary and timeless Australian interiors. Created for everyday living and specified for a wide range of residential and commercial spaces, the range balances design flexibility with practical performance.

The Woodmatt® finish captures the look and feel of authentic timber, combining natural texture with tactile surface detail. The latest timber designs blend familiar oak and timber inspirations with softer, neutral tones to create spaces that feel warm, grounded and enduring.

The Smooth finish offers a soft-touch surface with a subtle level of reflectance, delivering a clean appearance that is easy to maintain. Designed to enhance both colour and texture, Smooth brings depth and sophistication to solid colours, stone-inspired designs and timber décors alike.

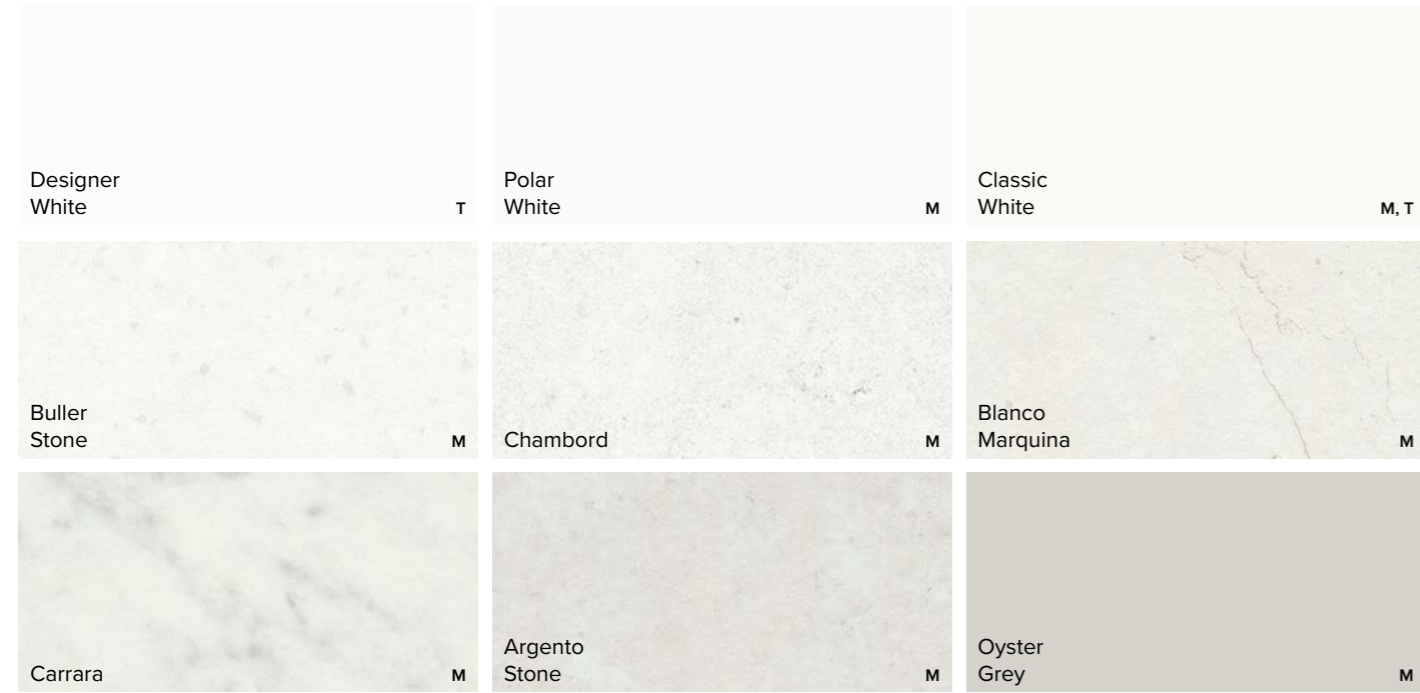

Available in three distinctive finishes and three benchtop profiles, the **polytec** Benchtops range is designed to help resolve everyday project requirements while supporting greater design freedom across kitchens, bathrooms, laundries, workspaces and commercial interiors.

Developed for the Australian lifestyle, the **polytec** colour range is designed with longevity in mind. Stone structures and woodgrain designs are carefully reproduced to reflect the character, depth and detail of natural materials, supported by advanced manufacturing technology and continued investment in innovation and local manufacturing.

Benchtops in **Laminate** Provincial Limestone Smooth.  
**Thermolaminated** Calcutta 35 doors, panels, drawers and  
**Thermolaminated** end panels in Aston White Smooth.  
Shelf in **Decorative** Ligurian Walnut Woodmatt.

Benchtop in **Laminate** Vesuvius Ceppo Smooth.  
Doors in **Decorative** 16mm Rojo Walnut Woodmatt.

Available finishes **M** = Matt **T** = Texture

Benchtop in **Laminate** Grey Taj Smooth.  
Doors in **Decorative** 18mm Rubra Oak Woodmatt.

## Environment & Sustainability

**polytec** is a 100% Australian family-owned brand and for over 30 years, we have taken pride in being an Australian manufacturer, with sustainability ingrained in the core of our operations, products, and work practices, shifting towards continual dedication to improving and enhancing our environmental performance. This involves a steadfast reduction of our carbon footprint, minimising waste, optimising energy efficiency, and integrating ethically sourced materials into our product ranges.

Our MDF and Particleboard are manufactured from managed and renewable plantation pine that has been Green Tag, Responsible Wood and PEFC certified. All **polytec** board products are manufactured from E0 or E1 substrates, with particleboard now made from a percentage of recycled wood material.

The reDirect Recycling Wood Recovery Initiative services **polytec** customers by collecting raw and melamine coated particleboard offcuts for reuse. These materials are diverted from landfill and repurposed into new particleboard within our closed loop manufacturing processes, reducing waste and preserving valuable plantation resources.

**polytec** is striving to reduce carbon emissions by installing solar panels throughout all sites nationwide. Since 2018, over 46,000 solar panels across the network of facilities have been installed. When installed, the Oberon facility was Australia's largest rooftop solar system with over 27,000 solar panels over eight hectares.

**polytec** is on a journey – one that places sustainability at the centre of how we design, manufacture, and support our customers. We believe that sustainable practices are the foundation of strong, resilient communities – and we're committed to contributing to a healthier, more sustainable future for all.

## Care & Maintenance

The surfaces of **polytec**'s Benchtops are made from a stain-resistant resin. The toughness and high impermeability of this surface means that **polytec**'s Benchtops & laminate should require no more than wiping with a soft cloth, dampened with plain water or a household detergent mix to remove all common household spills.

**polytec**'s Benchtops & laminate should be cleaned by wiping down with a damp soft cloth and warm soapy water. For more stubborn stains use a mild household cleaning spray. Always ensure you refer to the recommendations provided by the manufacturer of the cleaning product before use.

By following these simple steps you should retain a beautiful kitchen surface for many years.

Visit [polytec.com.au](http://polytec.com.au) for specific care and cleaning information.

## Important

Darker colours will show superficial wear and tear more readily than lighter coloured surfaces and require more care and maintenance.

The colours and details shown in this brochure are to the highest standards in printing. However, they should only be used as an indication of actual product colour. To order your free colour sample visit [polytec.com.au](http://polytec.com.au).

**polytec** swatches and samples represent a small area of the overall colour structure. To view a large colour sample or a full sheet design, visit [polytec.com.au](http://polytec.com.au).

The use of our current samples gives the colour and finish that a customer would expect to receive. Samples are provided for colour and finish selection, and **polytec** recommend testing a sample for fingerprint resistance and ease of cleaning. **polytec** does not guarantee exact colour matches across product ranges due to colour variation in each product group.

Some inspiration imagery is digitally rendered and should be used as a guide only.
