Designer Tip

Colour scheme

Neutral shades are popular in all types of homes. For a simple contemporary look, use the same colour on trims and doors.

Designer Tip

Dark brown

Rich brown can add depth and warmth. Try creating a tonal scheme with flooring and décor in similar deeper shades.

NEUTRAL & BROWN

Highly versatile, these natural colours suit both classic or contemporary applications. Brown with its earthy richness evokes a cosy intimacy, while lighter neutrals offer understated appeal.

Living spaces

Much loved, blue is the perfect shade for living spaces such as lounge areas or use a bold blue as a feature.

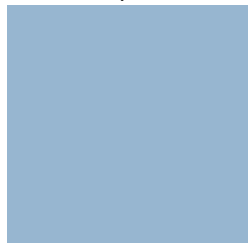

BLUE

Always popular, Australians love blue. Lighter shades have calming qualities and can make a room appear larger. Darker tones offer a dramatic mood much like the ocean and sky they embody.

Mood enhancing

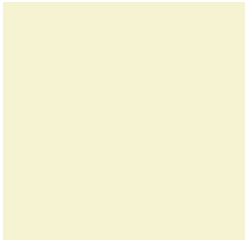

Yellow is a happy colour working well with fresh whites such as Dulux Vivid White™. Apply it to create features of walls or doors.

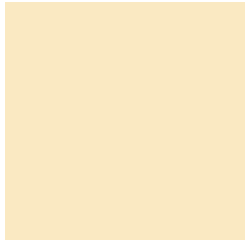

YELLOW

Bright, happy and forever optimistic, these yellows can highlight architectural features or brighten a dark space. Pair with cool whites and modern greys to command attention.
